My skills

I have experience in web development using HTML, CSS, JavaScript, React, and tools like Vite. My coursework includes advanced networking, with knowledge up to CCNA level, IT security and operating systems such as Windows and Linux. Proficient in Java, Python, and C++ (Arduino/ESP32), I also have experience in database management with SQL and PHP. Additionally, I am skilled in hardware assembly, infrastructure, and design using the Adobe Suite. My practical experience includes internships in bioinformatics and web development, further enhancing my technical expertise and problem-solving abilities. Additionally, I have a Cisco certification for base level IT security.
